AIPAC Statement on Amnesty International Report

Press Release

Once again, Amnesty International has issued a slanderous attack on Israel that amounts to a blood libel against the Jewish state. In reality, it is Israel that has been the victim of a genocidal attack that was launched by proxies of the Iranian regime that has vowed to eliminate the Jewish state. Israel is doing what any other country would do when faced with enemies that seek its elimination – it is fighting a just and moral war of self-defense.

While Israel confronts daily attacks from Iranian-backed terror groups and Hamas outrageously holds 100 hostages captive, the Jewish state has taken unprecedented steps to warn civilians of impending strikes and provide food, water, medicine and fuel into Gaza. The blame for the plight of Gazans should be placed directly on Hamas, which launched this war with a genocidal attack, exploits Gazan civilians as human shields, and has rejected numerous U.S.-backed ceasefire offers.

This outrageous report is just the latest in a long line of biased anti-Israel missives from Amnesty, whose U.S. branch is run by an individual who [doesn't believe Israel should exist as a Jewish state](#) and has been [unanimously criticized by House Jewish Democrats](#) for his "alarming and deeply offensive" views.

All people of goodwill should reject Amnesty's morally obscene accusations and stand with the only genuine democracy in the region that respects the rule of law
